Children will love seeing their work proudly displayed and promoted with the Freestanding Gallery Panel. A great way to showcase student artwork, the Gallery Panel also acts as an excellent backdrop for dramatic play, giving kids who might be "spotlight shy" a way to help bring a performance to life. Caregivers can challenge kids to draw and finger paint pictures that represent different story locations and important plot points. Pair the Gallery Panel with our Paint 'n Play Panel to create a comprehensive studio package. The panel is constructed of heavy-duty, weatherproof materials and is ADA accessible to kids of all ability levels age two to five. Masterpieces not included.
